The Safety First Society of New York City has issued a card, which it is giving wide distribution, and which it would be well for every factor can driver and owner to memorize. Here are its salutary injunctions:

MOTORISTS. Carefulness First Means

Safety Always. Be considerate. Go slow Passing children. Passing vehicles, Around corners, Approaching crossings

At railroad crossings, Behind street cars taking on or discharging passengers.
4. Use tire chains on wet and slip

pery pavements. Retter be safe than sorry. It is time that the carnage of the motor vehicle be greatly lessened, even though it cannot be entirely elim Many accidents are not the fault of drivers, but of awkkard, unthinking or careless pedestrians. The death and injury list, however, will be greatly minimized with the exercise of greater precaution on the part of

#### Stopping Insurance Frauds

Insurance Superintendent Robert M. Small has found it neces gary to make a raid on small irresponsible fire insurance companies lo cated in other states that persist in doing business in Ohio. They have no licenses to do business here; could not secure them if they tried because they could not meet the state's requirements.

"These companies are nothing more or less than insurance pirates. They are projected for fraudulent work" says Superintendent Small. it is fair to neither the insurance public nor to the regular fire insurance companies that they should be tolerated. It is not an easy thing to rid the state of them but I feel that the department owes it to the people to do all it can in that direction.

READING THE ADVERTISEMENTS

It used to be an old time joke that some people were so fond of newspapers that they even read the advertisements. That might have been a humorous

remark years ago. At that period some merchants would run an adverdisement for a whole year unchanged. Today people read the advertising as a matter of business. The women read it just as a farmer reads his

price current or a banker reads the financial news. They thereby get deas as to how they can save household or personal expenses, Probably a majority of the women turn first to the advertising of their favorite merchants, and then read the news later. The men also read the advertising

carefully. Even if they have no bus-iness enterprise of their own, they are interested in the advertising as a reflection of the business life of the

Hence it is perhaps unnecessary to suggest to the readers of this newspaper that its advertising columns are worthy of the most careful attention. They are giving that attention to these notices now.

Still it is worth while to say that there is no time when advertising is worth such careful attention as in mld summer. All kinds of merchants have the proposition before them of cleaning out their stocks before cool weather comes on. That takes a good deal of publicity. The goods won't move of themselves. The public must be told about them and in

SUIT CASES BY PARCEL POST. Here is a Good Tip For Those Going on a Vacation.

If you are going to the country and vant to lend a few gray halrs to the eads of Postmaster William E, Kelly and Albert P. Kuck, Superintendent of Mails at the Brooklyn Postoffice ust ship your suitcase to its destination by parcel post. Or, better still, after you get there, fill it with laundry and send it to the city to have the things done up and returned to you. Everybody's doing it.

According to Superintendent Kuck the practice of sending clothes and linen to and from the city to be laundered and returned has grown to be quite a fad. Every two hours there are between 20 and 30 suitcases reived at the main postoffice in Brool lyn for parcel post shipment. The low cost at which shipments can be made has made it a very attractive custom to hundreds of vacationists the charge for any point within a radius of 150 miles being only five cents for the first pound and one cent for each additional pound up to 50. An empty suitcase weighs only about four or five pounds, and when full about 35 or 40 pounds, -Brooklyn

BETTER ROADS ARE A REAL BENEFIT TO ALL CLASSES

Less Outlay for Fancy Postoffices in Small Towns and Appropriations for Highways is Favored-"Pork Barrel" Appropriation Bills Have

Been Roundly Condemned. No policy that Congressman Whitacre has espoused has been the subject of so many commendatory letters of Congress he had the satisfaction of seeing the House of Representatives by an overwhelming non-partisan vote pass the Shackelford good roads bill, which had been endorsed by good roads advocates at a meeting called at Mr. Whitacre's suggestion.

As to the benefits of improved highways Mr. Whitacre feels that there is no further need for argument. Strips of brick roadway in Columbiana, Stark and Mahoning counties vindlthemselves. The incalculable good that will flow from quick communication between country and town is now realized as never before. Peculiarly enough Americans have been slow to grasp this point through road building has been going on for years in European countries, where good highways are deemed as essential as

good railroad systems. As a means of getting funds for improved highways Congressman Whitacre believes that much money could be diverted for this purpose from the enormous outgo for public buildings throughout the country. "Pork Bar-rel" appropriation bills, carrying millions of dollars for postoffices in small towns, have been roundly condemned by him.

In a letter on the comparative benefits of postoffice buildings and improved roads, Congressman Whitacre said: "Fundamentally I am opposed to extravagant and useless expenditure, largely for show and ornamentation, for postoffice buildings in small towns and cities. If I am advised correctly the cost of maintenance and repair of new buildings is largely in excess of the rent paid for the room theretofore occupied, the item of interest on the

investment not considered. "The Democratic members of the House of Representatives twice properly, and with my vote, rejected the proposal of a General Public Bailding bill carrying a \$25,000,000 appropt riation for new postoffice buildings to be located in every state of the union. The bill proposed to plant buildings right and left, in towns entirely too small to warrant public buildings

'Eenator Lea of Tennessee, a Denicerat, and Senator Kenyon, of Iowa, a Republican, did the country a real service recently by unbaring the scandal of postoffice building appropria-tions. They succeeded during the recent session in forcing the Senate to reconsider bills granting \$75,000 for a postoffice in Sun Dance, Wyoming, with a population of 281 souls; \$67,-500 for a building in New Castle, Wyoming, with a population of 975; and \$65,000 for a building in Thermopolis, Wyoming, a town of 1,524 persons. With such squandering of the public money I do not sympathize neither, unless I am much mistaken. do the workmen, farmers and business men who pay the taxes.

"The Democratic House of Repreentatives is not being run on the ines followed by previous Houses, It has determined that this raid on the reasury heretofore carried in public buildings bills, placing postoffices in towns no matter how large, but where congressman needs votes shall be stopped, at any rate as far as this session is concerned. I am not able to say whether this spasm of economy will continue through the next session of Congress. The hogs are not all dead yet, and I regret very much to say that there are a number of them in the Democratic party."

Referring to the benefits that would flow to the resident of the city and town from good roads, Mr. whitacre

"The citizens of the town will profit by making a truck farmer ten miles from town as near to town as a threemile farmer. The zone of vegetable and dairy produce available to the towns will be so largely extended that the cost of these items to the towns will be reduced. 'A farmer on a brick road ten or twelve miles from town will be as near, so far as transportation and time is concerned, as the farmer three or five miles distant on a mud road. Everybody, whether in town or the country adjacent, would be financially benefited directly every day and every hour hereafter.'
